Boots · 3.82

WHERE MOMENTUM CAN COMPOUND

Hat

Hat, Handbag, and Hat's category peers show where merchandising and review momentum can compound.

—
Discount usage is highest for Hat at 50.00%, followed by Sneakers at 49.66% and Coat at 49.07%.

Discounts attract high-value shoppers, not only bargain hunters

839

customers used discounts while spending above the average purchase amount.

\$59.76

average purchase

Judge discount performance on retained value, not redemption alone.

DECISION

Prioritize targeted offers for high-potential customers

Instead of broad discounting.

Expand value

Loyalty is strong; subscription needs a sharper value proposition

CUSTOMER MIX

3,116

loyal customers

More than four to one versus returning and new customers combined.

TOTAL REVENUE

\$170,436

Non-subscribers

—

\$62,645 from subscribers

REPEAT BUYERS

2,518

non-subscribers

958 subscribers

Sharpen the value proposition

Young adults led revenue across age groups

Revenue by Age Group

\$62,143

Young Adults

\$59,197 Middle-aged · \$55,978
Adults · \$55,763 Seniors

The dashboard turns analysis into an operating tool

Interactive filters for subscription status, gender, category, and shipping type let teams move from a headline to a targeted customer slice.

From headline to slice

Five moves to convert insight into growth

01

Build
separate
journeys

For new,
returning, and
loyal
customers.

02

Promote
high-
performing
products

Within each
category.

03

Target
discounts

Where they
expand value,
not where
they simply
reduce price.

04

Give repeat
buyers a
reason to
subscribe

Make the
value
proposition
clearer.

05

Personalize
campaigns

Use age,
gender,
category, and
fulfillment
signals.
